# Mobile technologies for E-Learning

Blog: [j.mp/blog17180414](http://j.mp/blog17180414)

What we use:

- Clouds (Dropbox, Google drive, iCloud);
- Boardcasting (interactive public documents)
- Screencasts
- Webinars
- Mobile devices and laptops

Бордкаст / Boardcast: [j.mp/doc17180414](http://j.mp/doc17180414)

Dropbox folder: [j.mp/17\\_18-04-14](http://j.mp/17_18-04-14)

## Schemes:

1. Do the written assignment, scan it and send to Dropbox, the teacher will assess it and record a screencast, or the final response will be in the **boardcast**, either way back to Dropbox
2. Record a video-selfie with your response and send it to Dropbox, the teacher will record his own response
3. Put it altogether into the blog, make a **portfolio**

Level: user

*Mobile means portable and web-based, accessible from different types of devices*
